NOTICE OF TENTATIVE DECISION TO APPROVE, NO. M/003/031,
BEFORE THE DIVISION OF OIL, GAS AND MINING
DEPARTMENT OF NATURAL RESOURCES, STATE OF UTAH

IN THE MATTER OF TENTATIVE DECISION TO APPROVE A MINING
AND RECLAMATION PLAN FOR UTAH BUILDING STONE SUPPLY'S
GROUSE CREEK PROJECT, COUNTY, UTAH.

THE STATE OF UTAH TO ALL OPERATORS/TAKES OF PRODUCTION,
MINERAL AND ROYALTY OWNERS, AND PARTICULARLY ALL
PERSONS INTERESTED IN SECTIONS 34 AND 35, TOWNSHIP 13
NORTH, RANGE 17 WEST AND SECTIONS 2, 3, 4, 10 AND 11, TOWN-
SHIP 12 NORTH, RANGE 17 WEST, SLBM, BOX ELDER COUNTY, UTAH.

Notice is hereby given by the Division of Oil, Gas and Min-
ing of its tentative decision to approve Utah Building Stone
Supply's Mining and Reclamation Plan for their Grouse Creek
project. Mining activities will effect portions of the following or-
ders: Section 34 and 35, Township 13 North, Range 17 West and
Sections 2, 3, 4, 10 and 11, Township 12 North, Range 17 West,
SLBM, SLBM, Box Elder County, Utah.

The operator will employ the following mining and reclama-
tion techniques on approximately 106.8 acres of federal, state
and private land.

During Operations: This is an existing small mining operation
that is expanding to a large mining category. Rock will be
periodically removed from a series of natural talus slopes with a
front-end loader or by hand and loaded onto trucks. Over time,
it is anticipated that mining activities will eventually remove
about three to four feet of surface rock from the talus areas.
Rock will be transported to the process/loadout area where it
will be sorted, graded, and placed on pallets for final shipping.
Six to eight inches of topsoil will be salvaged and stockpiled
from the process/loadout area for use in reclamation of the site.
Approximately 3.1 acres of road were ripped and seeded dur-
ing the fall of 1997. An additional seven acres of road reclama-
tion is scheduled for the 1998 season.

After Operations: All rock material and associated mining related
debris/trash will be removed from the process/grading
area, topsoil will be respread over the affected area and the
site seeded. An additional 1.5 acres of access road will be
reclaimed by ripping and seeding. Approximately 12.6 acres
land disturbed area will receive reclamation treatments. Under
the proposed operations, no reclamation will be needed for
the natural existing talus slopes (72 acres) or for roads ap-
proved for postmining public and private access (22.2 acres).

The person representing the company is Mr. William Bower,
Phone (801) 295-0601. Utah Building Stone Supply is fulfilling
obligations under the Utah Mined Land Reclamation Act of
1975, Utah Code Ann. ss 40-8-10.

Any person or organization aggrieved by this tentative decision
to issue approval is hereby requested to submit written protest
within thirty (30) days of the date of publication to Mary Ann
Wright, Associate Director of Mining, Division of Oil, Gas and
Mining, 1594 West North Temple, Suite 1210, Box 145801, Salt
Lake City, Utah 84114-5801, setting forth factual reasons for the
complaint. If no responsive written protests are received by the
Division within 30 days after the last date of publication, the
tentative decision of the Division will be final.

DATED THIS 16th day of January, 1998.
